

I strongly urge the FCC to reconsider overturning New Jersey's 'Do Not Call' Law. This law is a guard for all cellphone users against unsolicited telemarketers. Overturning this law will permit these telemarketers to once again rack up the minutes on my cellphone and therefore cost me money. Those of us who signed up on the 'Do Not Call' list obviously do NOT want unsolicited calls. Again, I urge the FCC to NOT overturn New Jersey's 'Do Not Call' law.
